

CURRICULUM VITAE (CV)

Work Experience

2024
-
2024

IT Consultant (Part-time 3 month temporary contract)

Location: Phillips Solicitors - 6 Wood Street, Mansfield, NG18 1QA

I have analysed, planned, and implemented IT projects at Phillips Solicitors, including conducting audits and updating systems to ensure compliance with Cyber Essentials certification requirements. I have designed and created user-friendly court proformas using Microsoft Word, incorporating features such as date pickers and drop-down lists. The final task will be to optimise the company website to enhance its functionality and user experience. I regularly update stakeholders on project progress, designs, and costs, ensuring clear communication and attention to detail.

VKS Deployment Engineer (Job Description Change)

Location: Glenair - 40 Lower Oakham Way, Mansfield NG18 5BY

As a Deployment Engineer at Glenair, I led the upgrading of the shop floor system to an application-based process using VKS, ensuring smooth integration with minimal disruption. I managed IT hardware and work instruction software deployment, collaborating with stakeholders to define project requirements and maintain strong professional relationships. My responsibilities included organising deployment schedules, planning maintenance infrastructure, and communicating progress and delays to clients and the project board. Additionally, I optimised deployment processes, resulting in increased efficiency and reduced lead times, while implementing strategies to accelerate time to market. I also conducted audits to ensure the optimal functionality of deployment processes and stock intake.

2021

2023

IT Support Assistant

Location: Glenair - 40 Lower Oakham Way, Mansfield NG18 5BY

I was hired as a trainee at Glenair after completing my Level 3 education and later transitioned into a full IT support role after gaining hands-on experience. In this position, I provided hardware and software support, resolving first- and second-line issues in person and remotely. I was responsible for supporting day-to-day IT operations, troubleshooting, and maintaining IT systems to ensure smooth functionality. Additionally, I assisted with setting up IT equipment, provided technical training to end users, and kept detailed documentation of support activities and asset management. I also efficiently managed user account setups and system configurations, ensuring accuracy and attention to detail in all administrative tasks.

Hobbies And Interests

Current

Current

I enjoy exploring complex topics through analysis and research, uncovering patterns, and cross-referencing information to gain deeper insights. I often apply these findings to real-world scenarios for practical impact. This curiosity drives me to understand diverse viewpoints and how systems function, enhancing my critical thinking and adaptability. I am also passionate about weighted callisthenics, which challenges me to push my physical and mental limits, fostering discipline and resilience. In the future, I plan to take up hobbies like chess to develop my strategic thinking and communication skills further, combining mental agility with tactical decision-making.

Past

Past

My past hobbies have significantly shaped my skills and values. Participating in The Mill Adventure Base Club taught me the importance of teamwork and collaboration. Training in Taekwondo, Brazilian Jiu-Jitsu, Kendo, and Fencing developed my discipline, strategic thinking, and perseverance in challenging situations. At the same time, my involvement in the Combined Cadet Force (CCF) fostered leadership skills, instilling a strong sense of initiative and responsibility. These experiences collectively enhanced my ability to stay composed under pressure while working with others toward
